

FLOODbag

THE FLOOD PROTECTION SYSTEM

5 EFFECTIVE BAGS, EASY TO STORE ALTERNATIVE TO TRADITIONAL SANDBAGS

3 INSTALLATION STEPS

1. Open the plastic bag, making sure not to damage the Fernco Floodbags.
2. Saturate your Floodbags in water for a minimum of 5 minutes.
3. Place expanded Fernco Floodbags in layers to build a barrier outside the property.

SANDBAG

- ✗ Requires time consuming manual filling
- ✗ Bulky and takes up space
- ✗ Porous over time
- ✗ Can deteriorate if stored for a long time
- ✗ Heavy to lift and position
- ✗ Saturated with an uneven structure

VS

FLOODBAG
