

Product update

Nov 2020

As a result of raw material changes and customer feedback we have slightly altered and improved the following products as follows:

PRODUCT	IMPROVEMENT	PERFORMANCE	INSTRUCTIONS	PRICE
Mattstone	More Matt	No Change	No Change	No Change
Colour Intensifier	More Enhanced	No Change	No Change	No Change
MPG	Easier to apply	No Change	No Change	No Change
Crackle Glaze	Easier to apply	No Change	No Change	No Change

All new products will be in tins and have slightly different labelling branded with **"2020 Formula"**
Please see examples of the new labelling which will start arriving over the next few months

Whilst both existing and new formulations are compatible our advice would be not to mix bottles for any individual project to avoid any potential for discrepancies in finish.

Updated 2020 Safety Data Sheets are available on the LTP website.

Best regards

Richard Osborne
