ProofBase

ACRYLIC PRIMER

Vapour Permeable Universal Acrylic Primer

ProofBase Acrylic Primer is a universal, breathable primer that completes the ideal substrate preparation before the application of ***ProofTherm Insulating Render*** or ***Plaster***.

ProofBase controls suction and provides an ideal adhesive key for optimum results in all rendering jobs. Its vapour permeable formulation allows the substrate to breathe and works in conjunction with ***ProofTherm Insulating Render/Plaster*** to maintain a healthy, damp free internal environment.

Breathable Primer:

- Improves adhesion
- Suitable for all walls
- Internal and External
- Apply with brush/roller

Available in 5l and 15l tubs

CE
EN 998-1

ProofBase

INNOVATIVE BUILDING MATERIALS

Product Data:

Coverage and Application

ProofBase Universal Acrylic Primer is sold in ready to apply 15l and 5l tubs.

15l = 120m²

5l = 40m²

Mix with clean water at a ratio of 1:1

Apply with brush or roller

Properties

- Highly vapour permeable
- Hydrophobic acrylic formulation
- Easily applied using a roller or brush
- Rapid drying

Composition

- Water
- Acrylic Polymers in dispersion
- Silica aggregate

Handling and Storage

- Wear gloves and eye protection when handling/using
- Keep out of reach of children
- Clean spillages and tools with detergent and water
- Store at temperatures above 4c and below 35c and in a normally ventilated area

Health & Safety:

- May cause dizziness if directly inhaled over a prolonged period
- Prolonged direct exposure can cause eye and skin irritation. Wash/flush with clean cold water and seek medical attention in the case of direct contact with eyes
- In case of ingestion: Do not induce vomiting. Seek urgent medical attention
