

DeckProof System

# DeckProof System

**EcoProof specialises in fully bonded, liquid applied, waterproof seamless systems. Our focus is to provide long lasting, high performance waterproof membranes waterproof membranes fit for purpose and guaranteed to last.**

### The Advantages Of DeckProof

DeckProof can be brush or roller applied, fully cures within 20 minutes and can be trafficked within an hour. It sets a fully bonded membrane with over 200% elasticity. It is available in any colour and can be applied down to 0°C.

### Key Benefits

- **Seamless Waterproofing**
- **Fully Bonds To Substrate**
- **No Flames**
- **Anti-Skid Surface**
- **Sets In 20 Minutes**
- **High Chemical Resistance**

### Guaranteed Performance

The DeckProof System comes with a standard 10 year guarantee which covers all DeckProof products against failure.

### Contents

- Introduction
- DeckProof System
- Applications
- Product Range

DeckProof provides an extremely hard wearing Surface.

Completely seamless, fully bonded, waterproof membrane.

## DeckProof System

### Substrate

Clean surface ready to accept DeckProof Primer.

### Primer

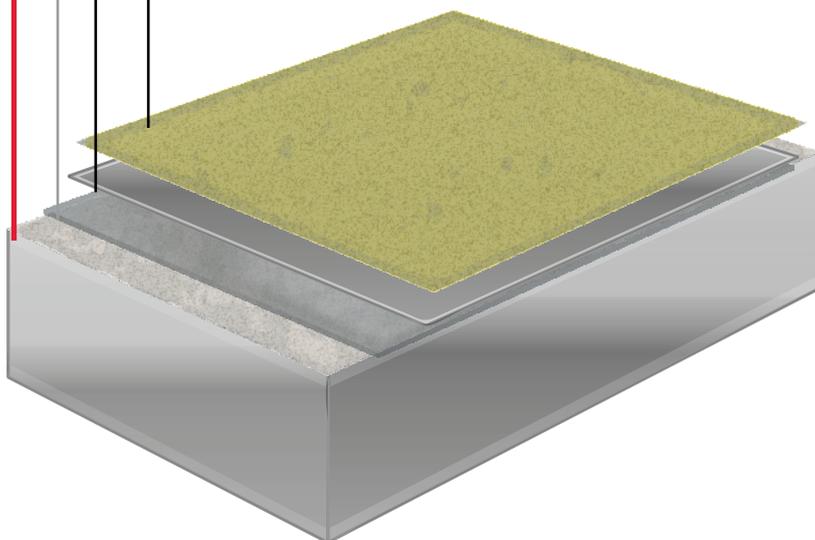

DeckProof Primer is used to provide a key to the surface and ensures maximum adhesion.

### DeckProof Waterproof

The main waterproofing membrane applied by either brush and roller. Cures within 20 minutes.

### DeckProof Anti-Skid

Anti-Skid layer applied by brush or roller. Cures within 20 minutes.

## Types Of Application

- Asphalt
- Felt
- Concrete
- Metal
- Timber

## Application Methods

### Brush And Roller Applied

Brush and Roller is the best method of application DeckProof. This method typically comprises of a 3 coat application leaving a average membrane of 2mm thickness .

Deatiling Primer and Joint Tape are used to detail joints, upstands, outlets etc. if required.

## DeckProof Flooring System

### Product Range Overview

Asphalt Primer  
General Primer  
Metal Primer  
Detail Primer  
DeckProof Waterproof  
DeckProof Anti-Skid  
Joint Tape

### Product Sales

Our Sales Team is available 9-5pm  
Monday to Friday for all your product  
enquiries. Contact the team on 0844  
335 6386.

**Asphalt Primer:** Improves the adhesion of the main membrane when applied to existing asphalt.

**General Primer:** Improves the adhesion of the main waterproofing membrane when applied to timber, concrete, fibre cement sheets and semi-porous surfaces.

**Metal Primer:** Improves the adhesion of the main membrane when applied to metal.

**Detail Primer:** Used to adhere Joint Tape to any areas that need detailing.

**DeckProof Waterproof:** Used for detailing in conjunction with Joint Tape and as the waterproof layer in the system(if required).

**DeckProof Anti-Slip:** Used as the anti-slip layer in the system can be used stand alone or in conjunction with DeckProof Waterproof for a waterproof anti-slip surface. Available in 6 colours.

**Joint Tape:** Used to detail upstands, parapets, joints in boards etc. Must be used in conjunction with DeckProof Detail Primer.

**DeckProof Flooring System**

## Help Desk

Our Technical Help Desk is available 9-5pm Monday to Friday for all your technical enquiries. Contact the Technical Help Desk on 0844 335 6386.

## Further Information

Further information is available on our website at [EcoProof.com](http://EcoProof.com)

## Technical Support Services

**Site Inspection** on all major projects the EcoProof Technical Team will attend site to discuss specifications prior to work commencing and sign off any work carried out on completion of the project.

**Approved Contractors** we have a network of nationwide Approved Contractors fully trained in the application of EcoProof. Please call our Technical Help Desk for more information.

**Specifications** are available on request containing detailed information on the application of EcoProof Systems to multiple surfaces. You can find specifications by visiting the technical section of [EcoProof.com](http://EcoProof.com) alternatively you can call one of our Technical Team on 0844 335 6386.

**Technical Help Desk** our technical help desk is available 9-5pm Monday to Friday to answer all of your technical enquiries.

### Approved Contractor Training

EcoProof host regular training programmes to provide contractors with the necessary skills and product knowledge to become a fully certified EcoProof Approved Contractor. For more information please call our Technical Help Desk or email one of our team.
