	MOSSPOUCH	5 x 50ml	15
	MOSS5	5Ltr	4

Product Description

EVERBUILD MOSS-AWAY Super Concentrate is a new type of Moss, Mould and Algae treatment that safely removes all type of green growth **without the need for any washing off, scrubbing or pressure washing**. Totally safe and non-hazardous to children and pets, once dry MOSS-AWAY is made from biodegradable ingredients and does not include any bleach or acid contents.

Available in either 5ltr concentrate or a 50ml super concentrate dissolving sachets in single clamp packs or in a pouch pack containing 5 x 50ml super concentrates.

MOSS-AWAY is ideal for removing green growth from surfaces prior to painting, staining, sealing or applying roof coatings.

Benefits

- Fast acting.
- No need for washing or scrubbing after application.
- Powerful fast acting formula.

Areas For Use

- Paved areas such as patios and driveways.
- Block Paving, fencing, sheds and greenhouses.
- Perspex, polycarbonate panels and garden furniture.

Limitations

- Dilute only as directed.
- Do not apply if rain is imminent (within 6 hours)
- For use only as specified as a surface biocide.
- On heavily soiled areas 2 applications may be required.

Application

50ml SACHET - Remove sachet from protective wrapper and simply drop into a bucket containing 5 Litres of water, ideally warm water to speed up dissolution which will take approx 30-60 seconds, in cold water this may take up to 2-3 minutes, mix briefly before applying.

5ltr CONCENTRATE - Dilute with water at a maximum rate of 1 Part MOSS-AWAY to 9 Parts water, mix briefly before applying. Apply by watering can with a rose sprayer, garden sprayer, paint brush or sweeping brush depending upon area to be treated.

Whilst this product is designed to be safe to use on most 'water safe' surfaces we recommend that you test a small inconspicuous area if unsure.

Apply at an approximate rate of 1 litre per 3 to 6m². N.B: ensure any debris such as leaves, twigs, loose soil or weeds are removed from surfaces to be treated prior to application. After applying simply leave for 1 to 3 days and the green growth will slowly disappear (in a similar manner to the way weed killers work).

On heavily soiled surfaces a second application may be required.

5ltr concentrate pack will cover approx. 300 square metres depending on level of soiling. 50ml sachet will cover approx. 30 square metres.

Health & Safety

Consult MSDS for full list of hazards.

Storage

Protect from frost. Store only in original containers.

Shelf Life

This product should be used within 2 years of manufacture.
