

Tile Ventilator Range - Double Roman

 CODE **GTV-DR**

Description

The Manthorpe Double Roman in-line tile ventilator is designed to provide a quick and simple solution to the problems of roofspace ventilation and mechanical extraction / soil stack termination through a Double Roman tiled roof.

The profile vent is designed to replace a single tile and maintain an unbroken appearance to the roofline whether used at high or low level.

The tortured path through the 4mm louvred grill and internal weathering geometry is designed to maintain a 10k mm² of airflow whilst channelling any water ingress out of the vent and on to the roof covering.

Weight	1.06kg
Box Qty	4 (4.5kg per box)
Materials - Top Base	PVC Polypropylene
Colours	Terracotta, Grey, Brown & Antique Red
Manufacturing	Injection Moulded
Free Airflow	10K mm ² per unit

Features

- In-line and discreet low profile design.
- 4mm louvred flyscreen grill.
- Integral sidelock clip to ensure secure fit.
- Range of profiles and colours available.
- Profiles suit all top tile manufacturers.
- Fully independently wind tunnel tested.
- Base outlet feeds directly into roof space.
- Adaptor available for mechanical extraction.
- Suitable for use down to a 20° roof pitch.
