

# K35 Screed Rail Specifications

## K-FORM

- Designed for pours of 50mm - 100mm thick concrete or screed
- Enables adjoining bays to be poured consecutively
- Pre-drilled holes in base for anchoring with mortar
- Fixing to steel deck possible with screws or shot nails
- The profile is made in UPVC and has a built in expansion joint
- Once concrete is poured, K-FORM is left in place; no need to remove and clean
- Separate wear strip can be removed once concrete is set to allow joint sealing
