*Commonly supplied STAKKAbox™ Modula sizes, due to component format of the chamber other sizes are available.

STAKKAbox™ Chambers

Standard (ULTIMA)

STAKKAbox™ ULTIMA offers a flexible access chamber system with no compromise on strength. Due to the design and the material used (GRP), ULTIMA should be used anywhere where sidewall loading is a concern, such as alongside highways or railway tracks.

Connect (ULTIMA)

ULTIMA Connect has been developed to offer greater flexibility in chamber sizes without compromising the strength of the standard ULTIMA system. Featuring the same twinwall, sectional design as the standard system sections however are built from combining multiple parts. As with ULTIMA, all parts are manufactured in GRP and sold as ring sections. All flat-pack requests

Modula

STAKKAbox™ Modula is a range of modular and structural preformed access chambers. The system provides contractors with a means of constructing access chambers quickly and inexpensively, whilst offering improved build quality, reduced defects and enhanced site safety performance.

Fortress

STAKKAbox™ Fortress is a range of modular and structural preformed access chambers. The Fortress system is moulded in HDPE and possesses excellent strength to weight properties. Each section is ribbed internally to improve loading performance.

Quad

STAKKAbox™ Quadbox is a range of modular and structural preformed access chambers, supplied by Cubis. Available in the 102, 104 and 106 sizes, Quadbox is the only modular access chamber approved for use on BT Openreach networks.

AX-S™ Covers

Composite (A15 - B125 - C250)

AX-S™ Composite covers offer a lightweight cover with no reduction in loading performance. A wide range of sizes can be manufactured utilising multi-cover frames and there are options for bespoke customer badging. Covers can also be fitted with locking features to enhance the security of the assets below.

Composite (C250)

AX-S™ Composite covers offer a lightweight cover with no reduction in loading performance. A wide range of sizes can be manufactured utilising multi-cover frames and there are options for bespoke customer badging. Covers can also be fitted with locking features to enhance the security of the assets below.

Concrete (B125)

AX-S™ Concrete Infill covers offer flexibility in size and design. A wide range of sizes can be manufactured utilising multi-cover frames and there are options for bespoke customer badging. Covers can also be fitted with locking features to enhance the security of the assets below.

Recessed (A15 - B125)

The AX-S™ Recessed cover range has developed a reputation in the construction industry for being high-quality, safe to use, value for money and secure when installed. AX-S™ Recessed covers are the sole approved footway cover used by end users such as BT Openreach and Virgin Media.

Hinged (D400)

The Hinge Lock range of D400 ductile iron access covers fully comply with BS EN 124:1994 and carry the British Standard kitemark.

Drop in (D400)

Drop in D400 ductile iron access covers fully comply with BS EN 124:1994 and carry the British Standard kitemark.
