

**POLY** *Skid Water Bowser*

Poly water tank c/w baffle, 18" manhole & locking cover mounted on galvanised skid chassis with pump mounting plate

- ❖ 6-8mm thick moulded polyethylene tank for strength and durability.
- ❖ Mounted on heavy duty skid frame with forklift pockets and lifting eyes/tie-down points for ease of handling.
- ❖ Extended chassis enables fitting of pumps, engines, equipment, etc.
- ❖ Hot dip galvanised frame for protection against corrosion.
- ❖ Moulded internal baffle to prevent water surge during handling & transport.

**Specification**

Standard tank fitting specification: 18" manhole with screw lid and centre 5" vented cap: ¾" lockable rear draw off. Lockable manhole cover
