

Block pavior access covers

100mm galvanised mild steel cover and frame

This comprehensive range of recessed manhole covers and frames are for use in areas of block paving where it is desirable to have continuity of surface finish and pattern. They are recessed 100mm for use with up to 80mm block pavior and galvanised to BS EN ISO 1461. The table below lists the main standard sizes with non standard sizes available on request. The lifting keyways are all reinforced to help avoid distortion.

- Manufactured from strong and highly durable mild steel
- Steel frames have superior adherence to bedding mortar than plastic frames
- Reinforced lifting keyways to help avoid distortion when lifting
- Galvanised to BS EN ISO 1461
