GUIDE

CHOOSING EXTERIOR DOOR FRAMES

All exterior door frames are designed for long-lasting performance and easy installation.

- Assembled oak veneer door frames are available to complement oak Stormsure window ranges and oak external doors. These are made to order. Flat pack oak veneer door frames are available from stock, see page 7.
- Manufactured from quality redwood and oak veneer with hardwood sills as standard where applicable
- Rebated to suit 44mm doors
- 170mm standard sill
- 140mm optional sill
- Fitted heavy duty PVC water bar (not on mobility frames)
- Supplied with a harmonising basecoat stain ready for on-site finishing (excluding flat pack oak)
- Fully finished door frames available to special order.
- Factory-glazed front entrance frames available to special order including PATT 70, PATTSC, Vertical Bar, see page 5.
- Factory-glazed fixed top lights available on storey height frames available to special order.
- Not all JELD-WEN door designs are compatible with the door frame range, please check before ordering.

Door frame and threshold

Building Regulations Approved Document M Mobility Amendment requires disabled access into buildings to be over a threshold no higher than 15mm (as illustrated on page 4).

Mobility

Mobility door frames are supplied with a threshold pack. This pack is loose and requires on-site fixing. Head packers are available to order if required.
