

### SANSWITCH-G8408

8-Port Gigabit Switch  
managed, VLAN, QoS

#### PRODUCT DESCRIPTION

##### ► Application:

The SanSwitch-G8408 is a powerful, high-performance Gigabit manageable Ethernet Switch, with all 8 ports capable of 10/100/1000Mbps auto-negotiation operation (NWay), which means the switch could automatically negotiate with the connected partners on the network speed and duplex mode. This switch supports PoE, which supplies power for connected devices via CAT 5 and above twisted cables. The PoE output can be managed individually on each port to provide best power to the PoE device.
